

AIC Portal (EduNexus)

Academia–Industry Collaboration Portal

Smart India Hackathon 2026 | Problem Statement SIH26044

AIC Portal is a centralized platform that connects Students, Universities, and Companies using AI-powered skill matching for internships and placements.

AIC Portal

1. Project Overview

The portal solves the gap between academic learning and industry hiring by bringing all stakeholders onto one platform.

- Objectives:
 - AI-based skill matching
 - Centralized placement management
 - Faster internship recruitment
 - Personalized student recommendations

Project Flow

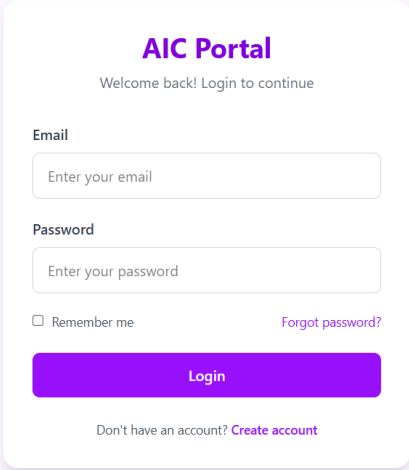

The image shows a 'Student Registration' form with a light purple background. The form is white with rounded corners and contains the following elements:

- Title:** 'Student Registration' in bold purple text, followed by the subtitle 'Create your student account' in a smaller grey font.
- Fields:** Four input fields with light blue borders and rounded corners:
 - 'Full Name *' containing 'Pranjal Sheth'.
 - 'Email *' containing 'shethpranjal4@gmail.com'.
 - 'University / College *' containing 'ABC University'.
 - 'Password *' containing seven dots.
- Buttons:** A prominent purple button labeled 'Create Student Account'.
- Footer:** A link that says 'Already have an account? [Login](#)'.

2. Technology & Working

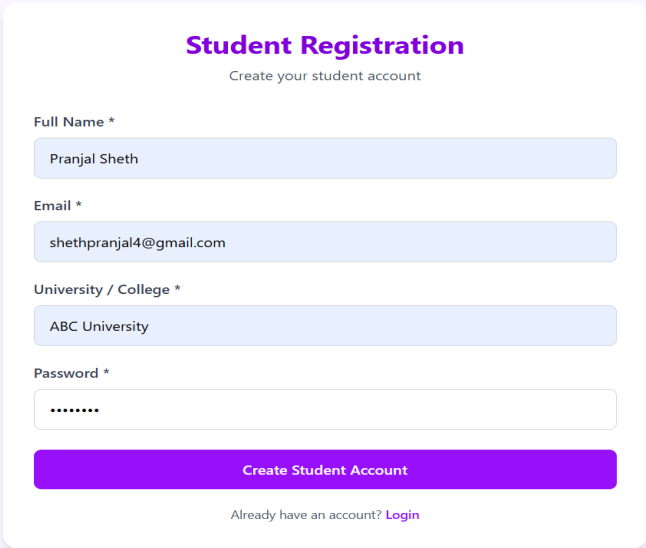

ReactJS and Tailwind CSS build the interface, Flask handles backend logic, MongoDB stores data, and an LLM analyzes skills for smart matching.

The image shows a login form titled "AIC Portal" with the subtitle "Welcome back! Login to continue". It features two input fields: "Email" with the placeholder "Enter your email" and "Password" with the placeholder "Enter your password". Below the password field, there is a checkbox labeled "Remember me" and a link "Forgot password?". A prominent purple "Login" button is centered below these fields. At the bottom, a link "Don't have an account? Create account" is displayed.

3. Student Module

Students create profiles, upload skills, explore opportunities, and receive AI-based recommendations.

The image shows a registration form titled "Student Registration" with the subtitle "Create your student account". It contains four input fields: "Full Name *" with the value "Pranjal Sheth", "Email *" with the value "shethpranjal4@gmail.com", "University / College *" with the value "ABC University", and "Password *" with masked characters "*****". A purple "Create Student Account" button is positioned below the password field. At the bottom, a link "Already have an account? Login" is provided.

6. AI Matching, Impact & References

The AI engine compares student profiles with company requirements and generates smart shortlists.

- Impact
 - Students discover opportunities faster.
 - Universities reduce manual placement work.
 - Companies hire skill-matched candidates more efficiently.
- Research Areas
 - Academia–Industry Skill Gap
 - Skill-Based Recruitment
 - Digital Talent Matching
 - Competency Mapping
- References
 - Smart India Hackathon 2026 (SIH26044)
 - AICTE Internship Policy
 - ReactJS, Flask, Mong oDB & Python Official Documentation
